WELCOME TO THE DRUMS

Every drummer you have ever heard started right where you are: one stick, one beat, one count at a time. This book takes you from your very first note all the way to playing full beats, fills, and a song chart. Take it one page at a time. Go slow. Enjoy the sound you are making.

HOW TO USE THIS BOOK

- 1 Count out loud.** Say the counts while you play. If you can say it, you can play it.
- 2 Use a metronome.** Every exercise has a tempo range next to its number, like **60–90 BPM**. Start at the low number. Move up 5 BPM at a time.
- 3 Know when to move on.** You are ready for the next exercise when you can play it **3 times in a row, with no stops, at the goal tempo**. Then check the box.
- 4 Play along online.** Every exercise in this book has a play-along player in the online version, with a metronome, drums, bass, and keys. Slow it down or speed it up as you learn.
- 5 Little and often.** 15 minutes a day, 5 days a week, beats one long practice on Sunday.
- 6 Show your teacher.** Your teacher will sign off each section on the Progress Tracker at the back.

SYMBOLS YOU WILL SEE

R / L	Right hand / left hand
>	Accent: play this note louder
Repeat sign	Two dots and a double bar: go back and play it again
p mf f	Soft, medium, loud (see page 5)
BPM	Beats per minute: the speed on your metronome

LEFT-HANDED?

No problem. Most exercises in this book are written for a right-handed drum set. If you play a left-handed set, just swap every R for L and every L for R, and swap your feet too. Your teacher will help you set up.

MEET THE DRUM SET

A drum set is a team of drums and cymbals that one person plays with both hands and both feet. Here is the set from above, the way you see it from the seat (called the **throne**).

HOW EACH ONE LOOKS ON THE PAGE

WHO PLAYS WHAT (RIGHT-HANDED SET)

Right hand: hi-hat or ride cymbal. **Left hand:** snare drum. **Right foot:** bass drum pedal. **Left foot:** hi-hat pedal. Both hands visit the toms and crash during fills. Cymbals are written with an **x**; drums are written with a round note. Hands have stems going up; feet have stems going down.

GETTING SET UP

Good habits on day one make everything easier later. Check each of these before you play.

1. Sit tall on the throne

Set the seat so your thighs are level or slope a little downhill toward your knees. Sit near the front edge, back straight, shoulders loose. Your feet rest flat on the pedals.

3. Find the balance point

Hold a stick loosely and let it tip. The spot about one-third up from the end is where it balances best. That is where you hold it.

5. Palms down

Turn your hands so the backs face the ceiling. From above, your two sticks should make a slice-of-pizza shape, tips close together over the middle of the drum.

2. Place the snare

The snare sits between your knees, a few inches above them. It should be close enough that your arms hang relaxed, not stretched out.

4. Pinch, then wrap

Pinch the stick at the balance point with your thumb and the middle of your first finger. Let the other fingers wrap around it gently. Squeeze just enough to keep it from falling.

6. Throw and let it bounce

Drop the stick into the drum and let it bounce back up, like dribbling a basketball. Do not press it into the head. The bounce is your friend.

HOW HIGH = HOW LOUD

PROTECT YOUR EARS

Drums are loud, even in a small room. Wear earplugs or drummer headphones every time you play on a real drum set. You want to be hearing music for the rest of your life.

READING RHYTHM

Music is split into **bars** (also called measures). The **4/4** at the start means every bar has **4 beats**, and a quarter note gets one beat. Count along with each line below.

Whole note

4 beats

Half note

2 beats

Quarter note

1 beat

Eighth note

$\frac{1}{2}$ beat

Sixteenth note

$\frac{1}{4}$ beat

RESTS: BEATS OF SILENCE

A rest means **do not play, but keep counting**. Every note has a rest that lasts the same amount of time.

Whole rest
4 beats

Half rest
2 beats

Quarter rest
1 beat

Eighth rest
 $\frac{1}{2}$ beat

Sixteenth rest
 $\frac{1}{4}$ beat

LOUD AND SOFT (DYNAMICS)

pp

very soft

p

ff

very loud

QUARTER NOTES

Play these on a practice pad or the snare drum. One note on every beat. Count **1, 2, 3, 4** out loud, and follow the sticking letters under each note.

1 2 3 4

1  

60–100 BPM

2  

60–100 BPM

3  

60–100 BPM

4  

60–100 BPM

5  

60–100 BPM

6  

60–100 BPM

7  

60–100 BPM

8  

60–100 BPM

LISTEN CLOSELY

Both hands should sound exactly the same. Close your eyes on number 3. Can you tell which hand is playing? If you can, slow down and make them match.

RESTS AND LONGER NOTES

Now some beats are silent and some notes last longer. **Keep counting through every rest.** For half and whole notes, play once and let the drum ring while you count.

1 2 3 4

9 60–100 BPM

Exercise 9: 4/4 time, 8 measures. Measures 1-4: R, rest, R, rest. Measures 5-8: L, rest, L, rest. Repeat sign at the end.

10 60–100 BPM

Exercise 10: 4/4 time, 8 measures. Measures 1-4: rest, R, rest, L. Measures 5-8: rest, R, rest, L. Repeat sign at the end.

11 60–100 BPM

Exercise 11: 4/4 time, 8 measures. Measures 1-4: R, L, rest, rest. Measures 5-8: R, L, R, rest. Repeat sign at the end.

12 60–100 BPM

Exercise 12: 4/4 time, 8 measures. Measures 1-4: R, rest, L, rest. Measures 5-8: R, L, R, rest. Repeat sign at the end.

13 60–100 BPM

Exercise 13: 4/4 time, 8 measures. Measures 1-4: R, L, R, rest. Measures 5-8: L, R, L, rest. Repeat sign at the end.

14 60–100 BPM

Exercise 14: 4/4 time, 8 measures. Measures 1-4: R, rest, rest, rest. Measures 5-8: R, L, R, L. Repeat sign at the end.

15 60–100 BPM

Exercise 15: 4/4 time, 8 measures. Measures 1-4: rest, R, L, R. Measures 5-8: L, rest, rest, rest. Repeat sign at the end.

TRY THIS

Play number 9 and clap your hands on every rest instead. Then play it again and just say the count on the rests. The silence is part of the music.

SOLO 1: FIRST STEPS

Your first full piece. It uses everything so far: quarter notes, half notes, rests, accents, and loud and soft playing. Watch the letters under the line for loud (**f**), medium (**mf**) and soft (**p**). Tempo: **70–100 BPM**.

1

mf

5

p

9

f

13

mf

f

PERFORMANCE TIP

Before you start, count one full bar out loud: "1, 2, 3, 4." Then begin on the next 1. That is called a **count-in**, and every band uses one.

EIGHTH NOTES

Two notes on every beat. The number is the **downbeat**, and the "&" (say "and") in between is the **upbeat**.
Count 1 & 2 & 3 & 4 &.

1 & 2 & 3 & 4 &

16 60–100 BPM 

17 60–100 BPM 

18 60–100 BPM 

19 60–100 BPM 

20 60–100 BPM 

21 60–100 BPM 

22 60–100 BPM 

23 60–100 BPM 

NAME THAT PATTERN

Number 18 is a **double stroke** (two hits per hand). Number 19 is a **paradiddle**: "pa-ra-di-ddle." These are two of the building blocks drummers use every day.

MIX IT UP

Quarter notes and eighth notes together, plus the eighth rest. Keep saying every count, even the silent ones. The counting is what keeps your notes in the right place.

1 & 2 & 3 & 4 &

60-96 BPM

TRICKY SPOT

Number 28 starts on an upbeat. Say "1" quietly in your head, then play on "&". Tap your foot on the numbers and play in between the taps.

ACCENTS

An **accent** (>) means play that note louder. Use a full stroke (high) for accents and a low stroke for everything else. The big difference between loud and soft is what makes it sound musical.

31

60-100 BPM

36

60-100 BPM

37

60-100 BPM

38

60-100 BPM

UP HIGH, DOWN LOW

Right after you hit an accent, keep the stick low for the next soft note. Wild sticks that fly back up make every note loud. Stay relaxed and let gravity help.

SOLO 2: GROUNDWORK

A solo using eighth notes, eighth rests, and accents. Use **right hand on the numbers**, **left hand on the "&"** and the sticking will take care of itself. Tempo: **70–110 BPM**.

MAKE IT YOURS

Once you know it, play the whole solo on the snare, then try moving each line to a different drum: line 2 on the floor tom, line 3 on tom 1. Same rhythm, new colors.

YOUR FIRST BEAT

A **groove** (or beat) is a pattern that repeats and makes people want to move. Build this one step by step. Do not move to the next step until the one before feels easy.

STEP 1 Right hand plays eighth notes on the closed hi-hat.

STEP 2 Add the left hand on the snare on beats 2 and 4. This is the **backbeat**: the clap in most songs.

STEP 3 Go back to just the hi-hat, and add the right foot on the bass drum on beats 1 and 3.

STEP 4 Put it all together. You are playing a real rock beat.

39

60–100
BPM

THE SECRET

Most beginner beats fall apart because the hands speed up when the foot joins in. Keep the hi-hat steady like a clock. Everything else fits around it.

GROOVES: LEVEL 1

Same hi-hat and snare as your first beat. Only the **bass drum** moves. Say the counts and notice where each kick lands: on a number, or on an "&".

CHALLENGE

Pick any two grooves on this page. Play the first one 4 times, then switch to the second one without stopping. Then switch back.

GROOVES: LEVEL 1 (CONT.)

Now some two-bar grooves, the **ride cymbal**, and the **hi-hat foot**. For number 52, keep your left foot pressing the hi-hat pedal closed on beats 2 and 4 while your right hand plays the ride.

60–100
BPM

CRASH ON ONE

In number 54, the right hand hits the crash instead of the hi-hat on beat 1, then jumps back. Drummers crash on "1" to tell the band a new section is starting.

FILLS: LEVEL 1

A **fill** is a short break from the groove that leads into the next part of a song. Play the groove 3 times, play the fill, then land on the crash. Count out loud so the crash lands right on "1".

55 60-96 BPM

TOO FAST FOR ONE HAND?

Try the two-hand version: play the sixteenths on the hi-hat with **R L R L**, and on beats 2 and 4 your left hand moves over to hit the snare instead. Great for faster songs.

FILLS: LEVEL 2

Sixteenth-note fills. Same plan as before: groove 3 times, fill, crash. Use the natural sticking from page 17 (R L R L on every beat) and move around the drums.

77 56-90 BPM

Groove x3 Fill Crash!

SOLO 3: ROCK THE HOUSE

A snare solo with sixteenth notes, accents, and big changes in volume. Use natural sticking all the way through. When you can play it cleanly, play it for someone. Tempo: **60-92 BPM**.

1

mf

5

p

9

f

13

mf *ff*

LOUD IS NOT FAST

When the music says **f** or **ff**, it is easy to rush. Play louder by lifting the sticks higher, not by hitting harder or speeding up.

SONG CHART: HOUSE PARTY

A **chart** is a map of a whole song. Read it top to bottom, left to right. Play along with your teacher, or put on a steady metronome. Tempo: **80–104 BPM**. Four clicks count you in.

1 INTRO

Musical notation for the Intro section, measures 1-4. The notation is on a single staff with a 4/4 time signature. It features a series of eighth notes and quarter notes, with 'x' marks above the notes indicating specific rhythmic patterns or accents.

5 VERSE

Musical notation for the Verse section, measures 5-8. The notation is on a single staff with a 4/4 time signature. It features a series of eighth notes and quarter notes, with 'x' marks above the notes indicating specific rhythmic patterns or accents.

9

Musical notation for measures 9-12. The notation is on a single staff with a 4/4 time signature. It features a series of eighth notes and quarter notes, with 'x' marks above the notes indicating specific rhythmic patterns or accents.

13 CHORUS

Musical notation for the Chorus section, measures 13-16. The notation is on a single staff with a 4/4 time signature. It features a series of eighth notes and quarter notes, with 'x' marks above the notes indicating specific rhythmic patterns or accents.

17 ENDING

Musical notation for the Ending section, measures 17-20. The notation is on a single staff with a 4/4 time signature. It features a series of eighth notes and quarter notes, with 'x' marks above the notes indicating specific rhythmic patterns or accents.

PRACTICE LOG

Write down every practice. Seeing your minutes add up is one of the best feelings there is.

[illegible]

PROGRESS TRACKER

When you finish a section, play it for your teacher. They will sign it off. Fill in a star when you can play the whole section at the goal tempo.
